Our Unique Approach

We realize one of the main issues our potential clients face is the lack of constant support and the communication challenges when they only speak to the Appointed Actuary.

At BADRI, we have a transparent four tier structure where there is an Assistant Manager and at least 1-2 analysts dedicated to each client. They are the first line of support and are constantly in touch with each client to resolve any queries.

Each client will also have a Manager and an Appointed Actuary who can also be contacted for any escalated problems.

Our client philosophy is to make sure that there is easy access to our team and avoid any bottlenecks.

Strong Emphasis on People Management

At BADRI, we focus a lot of time and attention to training managers to lead, while maintaining a culture of authenticity, transparency, and accessibility.

With a dedicated HR department, all phases of the employee life cycle are adhered to including recruitment of top-notch individuals, and an extensive Onboarding Training Cycle (OTC).

Each batch of new recruits is supervised by one or two Assistant Managers for the duration of their OTC. Meanwhile, internal BADRI resources who are subject matter experts provide hands on trainings on software, big data handling and analytics, and on actuarial concepts such as pricing and reserving.

A major focus is also given on communication skills to ensure that all client handling is done without a glitch.
